INDEPENDENT AUDITORS' REPORT

November 30, 2005

Executive Board Straits Area Narcotics Enforcement 1200 M-119 Petoskey, Michigan 49770

We have audited the accompanying financial statements of Straits Area Narcotics Enforcement as of and for the year ended December 31, 2003. These financial statements are the responsibility of the S.A.N.E.'s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of S.A.N.E. as of December 31, 2003 and the respective changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Page 2 Executive Board Straits Area Narcotics Enforcement November 30, 2005

The management's discussion and analysis and budgetary comparison information on page 3 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise S.A.N.E.'s basic financial statements. The supplemental statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements of S.A.N.E. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the component unit financial statements taken as a whole.

S.A.N.E. MANAGEMENT'S DISCUSSION & ANALYSIS DECEMBER 31, 2003

<u>Using this Annual Report</u>

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Team as a whole. The supplemental financial statements tell how these services were accomplished and compared to the budget.

<u>Synopsis</u>

The Straits Area Narcotics Enforcement (S.A.N.E.) is a multi-jurisdictional law enforcement task force. The team has police officers assigned from the Michigan State Police and several County Sheriff offices. Financial support comes from governmental entities that contribute cash as well as money generated via the narcotics forfeiture act.

<u>Financial History</u>

S.A.N.E. currently has assets of approximately \$303,373 with approximately \$36,935 of contributions for 2003 yet received.

During the years 1999-2002, S.A.N.E. generated an average income of \$205,751 per year. S.A.N.E.'s average operating cost during the same time period was \$236,756.

<u>Year</u>	<u>Income</u>	Operating Costs
1999 2000 2001	\$ 143,000 \$ 263,284 \$ 166,627	\$ 189,899 \$ 291,594 \$ 233,838
2002	\$ 250,094	\$ 231.692

This results in an average net loss of \$31,005 per year.

Economic Factors/Budget Forecast

S.A.N.E. historically has not been able to support itself on forfeiture funds and relies on public contributions for approximately 80% of its operation costs. These funds had been received from the 6 counties and other municipalities that participated with S.A.N.E. Without the participation of these units of government, S.A.N.E. would not be able to function. Management intends to continue to work with the units of government to ensure the ongoing fight against illegal substances in our communities.

Contacting Team Management

This analysis is intended to give a broad overview of the financial status of S.A.N.E. If you have questions about the report or need additional information, please contact the S.A.N.E. office.

Amounts reported for governmental activities in the statement are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. Equipment retirement is recorded as an expenditure credit in governmental funds, but not recorded as an expense in the statement of activities.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Straits Area Narcotics Enforcement conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the significant policies:

DEFINING THE REPORTING ENTITY

S.A.N.E. (Straits Area Narcotics Enforcement) is operated under an interagency agreement which includes Charlevoix, Cheboygan, Chippewa, Emmet, Mackinac and Otsego Counties, the Sault Tribe, the Bay Mills Tribe and the Michigan State Police. The purpose of this alliance is to establish a cooperative force combining their investigative services, manpower and/or resources for enforcement of Michigan controlled substances laws and related criminal activity. The criteria established for determining the reporting entity include oversight responsibility, scope of public service, and financing relationships. Only the activities of S.A.N.E. are included in these financial statements.

Government-Wide Financial Statements - The reporting model includes financial statements prepared using full accrual accounting for all S.A.N.E.'s activities. This approach includes not just current assets and liabilities, but also capital and other long-term assets as well as long-term liabilities. Accrual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter. Government-wide financial statements include the following:

Statement of Net Assets - The statement of net assets is designed to display the financial position of the Primary Government (governmental and business-type activities) and the total of its discretely presented component parts. S.A.N.E. reports capital assets in the government-wide statement of net assets and reports depreciation expense-the cost of "using up" capital assets-in the statement of activities. The net assets of S.A.N.E. are broken down into three categories-1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Activities-The statement of activities reports expenses and revenues in a format that focuses on the cost of each of S.A.N.E.'s functions. The expense of individual functions is compared to the revenue generated directly by the function. Accordingly, S.A.N.E. has recorded capital assets and certain other long-term assets and liabilities in the statement of net assets and has reported all revenues and the cost of providing services under the accrual basis of accounting in the statement of activities.

DONATED SERVICES

Personnel for the operations of S.A.N.E. are provided by the law enforcement agencies whose officers are working with S.A.N.E. No expense or revenue has been recorded for these donated services in the books and records of S.A.N.E.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

BASIS OF PRESENTATION - GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements include the Statement of Net Assets and the Statement of Activities. These statements report financial information on S.A.N.E. as a whole, excluding fiduciary activities for non-adjudicated funds.

The Statement of Net assets presents S.A.N.E.'s assets and liabilities with the difference being reported as either invested in capital assets, net of related debt or restricted net assets.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by general revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

BASIS OF PRESENTATION - FUND FINANCIAL STATEMENTS

Separate financial statements are provided for the operating fund (governmental fund) and the fiduciary fund. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

GENERAL FUND

This fund is used to account for all financial transactions except those required to be accounted for in another fund. The fund includes the general operating expenditures of the local unit. Revenues are derived primarily from forfeitures and restitution, interest on savings accounts and miscellaneous income.

FIDUCIARY FUNDS

These funds are used to account for assets held in trust or as an agent for others. Non-adjudicated activities are recorded in this category. Fiduciary activities are not reported in the government-wide financial statements, in accordance with GASB Statement No. 34.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

MEASUREMENT FOCUS/BASIS OF ACCOUNTING - GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

MEASUREMENT FOCUS/BASIS OF ACCOUNTING-FUND FINANCIAL STATEMENTS

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities for the current period. For this purpose, the unit considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

CAPITAL ASSETS AND DEPRECIATION

The S.A.N.E.'s property, plant, and equipment, with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. Donated assets are stated at fair value on the date donated. The unit generally capitalizes assets with historical cost of normal maintenance more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts and the resulting gain or loss is recorded in operations.

Estimated useful lives, in years, for depreciable assets are as follows:

Computers and peripherals	1-3 years
Office furniture	5-20 years
Vehicles	4-7 years
Buildings and improvements	25-40 years
Land improvements	10-20 years
Machinery and equipment	5-10 years

Land and construction in progress are not depreciated.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

DEPOSITS AND INVESTMENTS

The S.A.N.E.'s cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from date of acquisition.

State statutes authorize a governmental unit other than S.A.N.E. to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The governmental unit is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

NOTE B - CASH AND INVESTMENTS

S.A.N.E.'s adjudicated and unadjudicated checking accounts were maintained by the County of Emmet for the fiscal year ending December 31, 2003. These bank accounts had a combined book balance of \$173,238 as of December 31, 2003. The combined bank balance as of December 31, 2003 is unknown.
